Field Trip and Outreach Programs

711 N. Main St.
Rockford, IL 61103

discoverycentermuseum.org

Field Trip Options	2-3
In-Person Outreach Programs ...	4-6
Virtual Outreach Programs	7
Options & Pricing Grid	8

Whether you take your students to Discovery Center or bring Discovery Center to your classroom, our educators have countless ways to enhance your curriculum, inspire your students, and bring STEM to life! Our field trips, in-person outreach and virtual programs contain educational activities and resources for learners of all ages and are created to inspire and excite people about science.

Don't see quite what you are looking for? Contact us and our team of educators will work to meet your needs.

Fantastic Field Trips

Our interactive exhibits provide valuable hands-on experiences that match your curriculum and align with Next Generation Science Standard Disciplinary Core Ideas. Visit Discovery Center Museum and teach a lesson your students won't forget!

NGSS: ESS2.BD, ESS3.B, ETS1.AB, LS4.CD, LS3.A, PS2.AB PS3.ABCD, PS4.ABC
IELDS: 9.A.ECa, 11.A.ECe, 12.B.ECb, 12.D.ECb, 19.A.ECa, 19.A.ECb, 30.C.ECa

Length: approximately 2 hours (longer for add-on programs or lunchtime)

Basic Field Trip Cost: \$6 per students or chaperone (all school staff members are free)

RESERVATIONS: To begin the registration process, complete the online form at www.discoverycentermuseum.org/group-visit-request-form. For additional questions, you can also email fieldtrip@discoverycentermuseum.org. Our calendar fills well in advance. For the best choice of dates, please book at least 2-3 months before your planned visit.

Permanent Exhibits

Figure It Out

Flip, fold, and figure out patterns and relationships while exploring shapes and symmetry; sequences, shadows, and transformations. Use measurement and logic skills and connect to art, music, science, and society!

Simple Machines

Use a giant Archimedes' Screw to set in motion a whirlwind of activity on our transparent interactive wall. Lift yourself off the ground with a pulley and experience how to make work easier using simple machines.

Color & Light

Capture your shadow on a wall, project a moving rainbow-image of your body, write with light, play with shadows, and tease your brain! Explore our newly revamped bubble exhibit with a bigger and better body bubble, new bubble tables, and mysteriously mist-filled bubbles!

Get the Message

Try your brush at virtual cave art, signal a crane operator, learn sign language, decode a traffic sign, and anchor the news!

Ag-Zibit

Explore science and technology on the farm from simple machines to GPS and discover how agriculture affects all our lives everyday! Climb aboard the tractor, gather eggs, milk the cows, move grain, make corn husk dolls, play a farm matching game and more.

Air & Flight

Soar with science as you float a ball on an invisible cushion of air, see the mechanics of airplanes in action, feel a vortex, and experiment with wind.

Rockford Astronaut Janice Voss

Get a first-hand view of space flight, examine astronaut accessories, design your own mission patch, and find out what inspired Janice to reach for the stars.

Wild Weather

Touch a tornado, create the coriolis effect, model the swirl of planetary weather, measure the sun's shadow on the earth in real time, and build sand dunes.

Discovery Park

Navigate through the outdoor park to play with forces, motion, simple machines, optical illusions, and more! Availability is seasonal / weather dependent.

Body Shop

Get your muscles moving, measure your heart rate, test your strength and agility, play games with your brain, design a nutritious meal, examine genetic traits, see the inner workings of the human body, and more!

Sponsored by 

Power of Electricity

Turn body power into electrical power, feel the force and find the link between motion, magnets, and electricity! Harness the power of wind, assemble a circuit, dial up some solar energy, and witness stunning electrical phenomena!

Sponsored by 

Team Up! Explore Science & Sports

Play virtual-reality soccer, clock the speed of your pitch, launch a tennis ball, try on sports equipment, measure bounces, and test for rotational inertia.

Tot Spot Gallery

Recommended for grades PreK-K

This exclusive area allows children 6 years and younger to take the lead with exploration, imagination, and creativity. Visit Ginny's House, work on the family car. Take a trip to the children's hospital and be the doctor or nurse as you give an exam, review x-rays, and tend to babies in the hospital nursery. Explore backyard nature and climb into a treehouse, catch a fish and eat a camp meal. Children can also experiment in the Water Play area, and watch wind and gravity in motion.

Careers Kiosks

Learn about jobs from the people who do them! Computer kiosks feature videos, photos, and information for a variety of career fields, including scientist, chef, doctor, engineer, machine operator, baker, artist, graphic designer, and many others. Graphic panels throughout the exhibit galleries feature people in occupations that relate to those exhibits.

TV Studio

Experiment with green screen technology like a real meteorologist! Report the news and instantly see yourself on screen.

Sponsored by 

I just wanted to take a moment and thank you as well as your incredible staff for accommodating our group today. The students had an amazing time, and we consider it a real privilege to have such a special place in our city. We look forward to seeing you next year.

Whitney Reed, 2nd grade teacher, Welsh Elementary

Programs to Enhance Your Field Trip

STEM Labs

Add on to your visit and focus your students on a science theme. Each engaging workshop features activities, investigations and demonstrations that match your curriculum goals and reinforce science concepts.

Length: 45 minutes

Cost: \$55/class up to 30 students

Space Engineering *New!*

Grades: 2-6

Students will put their teamwork skills to the test as they try to support life on the moon by engineering an airtight greenhouse and playing our Survival on the Moon adventure game.

NGSS: PS3.B, ETS1.ABC

Illinois SEL Standards: 2.A.2ab, 24A.2b, 24A.3b

Microscope Adventures *New!*

Grades: 3-8

Use real microscopes, prepare slides, and investigate the world of the very small. Examine cell structures and locate living organisms in unexpected places.

NGSS: ETS1.ABC, LS1.A, PS1.A, PS4.AB

Soil Sleuths & Microscopes *New!*

Grades: 1-8

Use real microscopes to become a dirt detective. Solve a soil mystery by preparing your own slides and get your hands on some slimy worms. Join us as we learn about the science that gets food to your table.

NGSS: ETS1.ABC, LS1.A, PS1.A, PS4.AB

Slime & Chemistry

Grades: K-8

Measure, pour, and mix real chemicals to produce reactions, investigate solids, liquids, and gasses, and concoct slime!

NGSS: ETS1.ABC, PS1.AB, PS3.B

Roller Coaster Science

Grades: 1-8

Students make use of engineering skills as they design and test their own roller coasters in this exploration of kinetic and potential energy.

NGSS: ETS1.ABC, PS2.AB, PS3.ABC

Illinois SEL standards: 2C.1b, 2C.2b, 2C.3B

Robot Rendezvous

Grades: Pre-K-8

Design bots and compile code as your students put their problem-solving skills to the test with our robots.

NGSS: 3-5 ETS1-1 ETS1-2, ETS1-3

Illinois SEL Standards: 2.A.2ab, 24A.2b, 24A.3b

Early Childhood STEAM Labs

Add on to your visit and focus your students on a science theme. Each engaging workshop features activities, investigations and demonstrations that match your curriculum goals and reinforce science concepts.

Length: 30 minutes

Cost: \$40/class up to 20 students

Color & Light *New!*

Grades: PreK-1

Come see the world in a whole new light. Fool your eyes with wacky mirrors and shifting colors that may not always be what they appear to be. Students will play with light and shadow and will make their own butterfly design to take home to share their learning adventure with their family.

IELDS: 11.A.ECacf, 25.A.ECbD

NGSS: PS4.B

Bugs

Grades: PreK-K

Build, sort, and play with bugs while we explore the tiny world of our smallest friends.

IELDS: 7.A.ECa, 8.A.ECa, 12.A.ECa, 12.B.ECb, 13.B.ECa

Common Core for Math: K.CC.4

Shapes & Patterns

Grades: PreK-K

Students get a brain-workout with this assortment of patterns, puzzles, shapes and sorting designed to stimulate creative thinking. Young learners won't even realize they're doing math!

IELDS: 8.A.ECa, 8.A.ECb+, 9.A.ECabd

NGSS: ETS1.ABC, PS1.A

Discovery Planetarium

Experience the night sky in Discovery Center's planetarium! Pick a show tailored to your group's interest and ability level to explore planets, stars, space exploration, and constellations. **These shows are designed for our in-house planetarium.**

The planetarium is a gift from the Kiwanis Club of Rockford.

NGSS: ESS1.AB, PS1.A,

PS2.AB, PS4.BC

IELDS: 12.B.ECb, 13.B.ECa

Length: 30 min

Cost: \$30 per show up to 30 students

Grades: Pre-K and up

Big Bird's Adventure

Grades: Pre-K-1

Big Bird and Elmo explore the night sky and discover that we see the same phases of the moon as our friends across the world!

Discover the Night Sky

Grades: 2-8

This live presentation walks students through the sky tonight and points out moon phases, planet locations, and constellation identification. Seasonal constellations are illustrated using stories from Greek mythology.

Earth, Moon, and Sun

Grades: 3-8

The Native American mythical Coyote's incorrect notions about basic astronomy prompt explanations. Animation and real images come together to teach about daily motion of the sun, phases of the moon, seasonal changes in star locations, and eclipses.

Temporary Exhibit

February - May 2023

Grades: Pre-K-2

Cost: Additional \$1

In Discovery Town, a kid-size city, children play as they learn about the people and places that make up a community. Each stop on the trip through town provides opportunities for children to try out adult roles through role play. While in Discovery Town, children can visit a vet clinic, pizza shop, fire station, local theater, post office, airport, classroom and outdoor park. The pint-size community promotes problem solving, creative exploration, and getting along with others, as well as practice with essential fine and gross motor skills.

Outreach Programs

Our Outreach Programs bring the excitement of science learning to you! Whether you are educating one small class or the entire school, we offer a wide variety of programs which meet the needs of your students, enhance your curriculum, and line up with *Next Generation Science Standards Disciplinary Core Ideas*.

REGISTRATION: To begin the registration process, complete the online form at www.discoverycentermuseum.org/outreach-request-form. For additional questions, you can also email outreach@discoverycentermuseum.org or call our Outreach Request Line at 815-972-2844. Our calendar fills well in advance. For the best choice of dates, please book at least 2 months before your planned event. Discovery Center policies may change as COVID-related CDC, state, and local health guidelines evolve. Check our website or email us for the latest information

In-Person Outreach

Hands-On Classes

Engage your brain and immerse your hands in science with our Hands-On Classes! Whether introducing a topic, reviewing for a test, or investigating for fun, every student will be excited about learning science and begging for more!

Grades: vary by topic

Length: 60 minutes

Participants: 30 maximum

Cost: \$150 (\$70 for each additional class*). Travel fees may apply.

Magnetic Attractions

Grades: K-3

Test to see what sticks, measure magnetic strength, and construct a magnetic contraption.

NGSS: PS2.AB, ETS1.AC

Slime & Chemistry

Grades: K-8

Measure, pour, and mix real chemicals to produce reactions, investigate solids, liquids, and gases, and concoct slime!

NGSS: ETS1.ABC, PS1.AB, PS3.B

Color & Light

Grades: K-8

Explore the properties of light, fool your vision, dissect a rainbow, experiment with invisible light, and create your own kaleidoscope.

NGSS: ETS1.ABC, PS1.A, PS4.AB

Simple Machines **

Grades: 2-8

Investigate mechanical advantage and get the scoop on force and motion with hands-on practice using a giant lever, pulleys, and LEGO gears!

NGSS: ETS1.ABC, PS2.AB, PS3.AC

Engineering Challenge ***

Grades: 3-8

Design and construct your own contraption to fly, spin, or stay put, then test it in our vertical wind column.

NGSS: ETS1.ABC, PS2.AB, PS3.AB

Fling & Wing

Grades: 2-6

Learn aerodynamic secrets as you assemble and launch some crazy shapes. You won't believe these gadgets fly!

NGSS: PS2.AB, ETS1.C

Early Childhood Hands-On Classes

These hands-on experiences feature activities that allow our littlest learners to explore at their own pace with amazing materials which stimulate senses and excite minds!

Toddler classes available upon request.

Grades: Pre-K

Length: 30-45 minutes

Participants: 20 maximum

Cost: \$125 (\$50 for each additional class*)
Travel fees may apply.

Tinkering

Little fingers love to tinker so we'll give them the tools to explore! Construct a contraption, build a masterpiece, and design whatever your imagination creates.

IELDS: 6.D.ECb, 7.A.ECc, 9.A.ECb, 13.A.ECa

Rainbow of Colors

Explore the spectrum in this luminous class. Learn about the rainbow, mix some colors, and view the world in a different light using our color viewers.

IELDS: 10.A.ECa, 11.A.ECa, 12.E.ECa, 25.A.ECd

Forest Friends

Explore natural wonders of the forest by playing with trees and imagine what it's like to be a woodland creature.

IELDS: 12.A.ECab, 12.B.ECb, 26.B.ECa

Wheels in Motion

Make a commotion while exploring the exciting world of locomotion.

IELDS: 11.A.ECdf, 12.D.ECab
NGSS: PS2.A, PS3.C

Thank you for such an entertaining and informing night of science for our Lincoln Elementary students. Your passion for your work really shines through.

Emma Dieter, Lincoln Elementary

In-Person Outreach continued

Science Carts

Roll science right into your classroom to maximize student participation and discussion!

Grades: 1-8

Length: 45 minutes

Participants: 30 maximum

Cost: \$150 (\$60 for each additional class*). Travel fees may apply.

Weather Cart

Witness the water cycle and see how this process leads to sun and storms! Instant clouds and touchable lightning unlock the complex phenomena of weather!

NGSS: ESS2.CD, ESS3.B, PS1.AB, PS3.AB

Electricity Cart **

Explore where our electricity comes from. Generate and transmit energy, and de"light" in static electricity.

NGSS: ETS1.ABC, PS2.B, PS3.AB

Sponsored by 

Sounds of Science

Get splashed by a sound, invent some wacky noise-makers, and use pipes to discover the connection between size and pitch.

NGSS PS2.AB, PS4.A

* Additional program discount applies for programs of the same topic held on the same day at the same location.

** This program has a special space requirement.

*** Expanded age range available for younger participants.

Don't see quite what you are looking for? Contact us and our team of educators will work to meet your needs.

Portable Planetarium **

Availability based on current COVID restrictions. We'll bring you the moon and stars with our inflatable portable planetarium! Presentations are tailored to your grade level.

Grades: K-8

Length: 30-45 minutes

Participants: 30 maximum

Cost: \$150 (\$60 for each additional show*) Travel fees may apply.

Show Themes: The Sky Tonight, Ancient Stories in the Stars, and Our Solar System.

I wanted to let you know that the program on Saturday was awesome! Chase eating the frozen flaming cheetos was a big hit!

Jen Ernsteen, Vernon Area Public Library District

Assembly Programs

These dynamite demos feature experiments, investigations, and explanations woven together in a stimulating presentation.

Grades: K-8

Length: 30-45 minutes

Participants: 150 maximum

Cost: \$300 (\$250 additional show*). Travel fees may apply.

The Liquid Nitrogen Show **

Excitement goes up as the temperature drops in this ultra-cold show! Witness instant phase changes and identify the differences in states of matter as they succumb to the frigid world of liquid gas!

NGSS: PS1.AB, PS3.AB

The Captivating Chemistry Show

Solids, liquids, and gasses combine to create chemical changes that look like magic. Chemistry becomes apparent using surprising reactions that create colors, fabricate foam, and explode!

NGSS: ESS3.A, PS1.AB, PS2.B, PS3.ABCD

Forces in Motion **

Amazing feats come together to weave the story of Newton's Laws of Motion in this compelling program! From collisions to physics games, this is one memorable science lesson!

NGSS: ETS1.ABC, PS2.AB, PS3.ABC

Family Fun Programs

You provide tables and volunteers; we bring everything else! Ideal for schools, libraries, and community centers, these hands-on sessions feature activity stations of experiments, games, math, science, and make-and-take projects designed to engage and interest all ages

6–10 stations

Length: 60–90 minutes

Participants: 300 maximum

Cost: \$400; Travel fees may apply.

2–5 stations

Length: 30–60 minutes

Participants: 150 maximum

Cost: \$250; Travel fees may apply.

Myths & Legends New

Explore cultures and mythologies from around the world. See how alchemy relates to chemistry, create your own mythical creature, learn something new from famous tricksters of different cultures, and more in this science themed literacy night.

NGSS: ETS1.ABC, LS1.D, PS2.ABC, PS3.AB, PS4.BC

Outer Space

Launch a rocket, explore an exoplanet, and space out in the Solar System! Take on an engineering challenge by designing a spacecraft, a Mars rover, or a lunar base.

NGSS: PS2.A, PS3.C, ETS1.A, ETS1.ABC, ESS1.AB

Whoosh

Experiment and play with the amazing properties of air! Create flying contraptions, fold a kite that can fly inside, launch a rocket, and more!

NGSS: ETS1.ABC, PS1.A, PS2.AB, PS3.AB

Fun & Games

Play games from around the world, create a mosaic masterpiece, fashion an intricate design, create 3-D shapes and more. Shhh: don't tell them it's math!

NGSS: ETS1.ABC, PS1.AB

Little Scientists

Manipulate magnets, compare colors, and fool with physics! Explore the world through activities designed for families with children grades **PreK-2**.

NGSS: ESS2.C, ETS1.ABC, LS1.AD, PS1.A, PS2.AB, PS4.AB

IELDS: 8.A.ED a, 12.D.EDa, 19.A.ECd

Afterschool Enrichment / Science Club Activities

We bring the excitement of science learning to you! Our active programs provide all materials plus playful engagement for your students and family groups. Choose from these topics for hands-on science fun!

Grades: Varies by topic

Length: 45–60 minutes

Participants: 30 maximum

Cost: \$150 (\$70 each additional program*). Travel fees may apply.

Blast Off **

Grades: 1-6

Explore forces and motion with these paper rockets that launch using air power, and fly so far they hit the gym wall!

Build It Bigger ***

Grades: K-6

Put together everyday objects and special materials to create bridges and towering structures.

Fling & Wing

Grades: 2-6

Learn aerodynamic secrets as you assemble and launch some crazy shapes. You won't believe these gadgets fly!

Good Vibrations

Grades: K-6

Get splashed by a sound, invent some wacky noise-makers, and use pipes to discover the connection between size and pitch.

Engineering Adventure ***

Grades: K-8

Design and construct your own contraption to fly, spin, or stay put, then test it in our vertical wind column.

Rolling Ramps***

Grades: K-2

Construct a crazy coaster or simulate a sensational slide with our set of ramps and balls of all sizes.

Lots of LEGOs

Grades: 1-5

Investigate gears and forces and use America's favorite bricks to construct a merry-go-round or windmill that really works!

Thrill Ride **

Grades: 1-8

Experiment with potential and kinetic energy as you invent a rollercoaster, and take a marble on a wild ride!

* Additional program discount applies for programs of the same topic held on the same day at the same location.

** This program has a special space requirement.

*** Expanded age range available for younger participants.

Virtual Outreach

With the help of technology, PreK to Grade 8 students will enjoy live, interactive exploration of a STEM topic designed to spark interest in science and inspire students to learn more.

Astronomy Shows

We'll show you the moon and stars with our Virtual Astronomy Shows! Presentations are tailored to your grade level and unique to this traveling program.

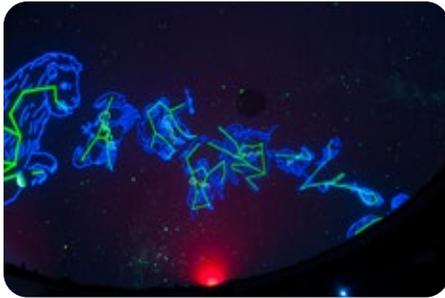

NGSS: ESS1.AB

Grades: Varies by topic

Length: 45 minutes

Participants: 30 maximum

Cost: \$140 (\$60 for each additional show*)

Greek Mythology: Ancient Stories in the Stars

Grades: K-8

Come listen to some very old tales and explore the world of heroes, monsters, and demi-gods hidden among the stars with these stories inspired by the classic Greek myths.

Our Solar System

Grades: K-8

Take a trip through our local stellar neighborhood and get to know the planets closest to us. Learn some fun facts about the planets in our solar system, take a (safe) look at the nearest star, and find out what NASA has been up to lately.

Our Place in the Universe

Grades: 2-5

This live presentation walks students through the patterns found in our night sky. Learn how to navigate the ecliptic line and where the stars go during our day time sky.

You were awesome. The kids and I enjoyed you so much. Maybe this will become a yearly event for our school.

Mike Cantrell, South Middle School, Henderson, Kentucky

Science Shows

These dynamic demos feature experiments, investigations, and explanations woven together in a stimulating presentation.

Grades: K-8

Length: 30-45 minutes

Participants: up to 95 computers

Cost: \$300 (\$250/additional show*)

The Liquid Nitrogen Show

Excitement goes up as the temperature drops in this ultra-cold show! Witness instant phase changes and identify the differences in states of matter as they succumb to the frigid world of liquid gas!

NGSS: PS1.AB, PS3.AB

The Captivating Chemistry Show

Solids, liquids, and gasses combine to create chemical changes that look like magic. Chemistry becomes apparent using surprising reactions that create colors, fabricate foam, and explode!

NGSS: ESS3.A, PS1.AB, PS2.B, PS3.ABCD

Forces in Motion

Amazing feats come together to weave the story of Newton's Laws of Motion in this compelling program! From collisions to physics games, this is one memorable science lesson!

NGSS: ETS1.ABC, PS2.AB, PS3.ABC
