

Private Camp-Ins 2019-2020

EASY as 1-2-3!

Schedule your own private overnight event

Bring the entire Pack, Nation, Council, or Service Unit

Get the whole museum to yourselves

Participate in STEM-focused, hands-on activities

Enjoy a live science demo or planetarium show

Set up your camp and sleep in the exhibit spaces

Wake up to breakfast and more play time

**Advance registration and advance payment are required.
Only approximate number of participants required at registration.**

Fees: \$1500 for 50 people. Additional attendees \$30 per person.
20% (\$300) non-refundable deposit due at reservation. Maximum 200 people. Fees include all program materials, evening snack and breakfast, planetarium show or science demonstration; plus kids and adults receive a Discovery Center Museum patch. Scout awards not included.

Cancellation Policy: Refunds are available up to one week prior to event, minus deposit. Discovery Center reserves the right to cancel events, in which case, a full refund will be issued.

1. Select a Date

Friday, 1/31/20	Friday, 5/8/20
Saturday, 2/1/20	Friday, 5/15/20
Friday, 2/28/20	Saturday, 5/16/20
Friday, 3/20/20	
Saturday, 3/21/20	
Friday, 3/27/20	

2. Call or email with your deposit

Scouts@DiscoveryCenterMuseum.org

815-972-2842

We will verify your date by phone or email. Your \$300 non-refundable deposit secures your date. Full payment and roster are due two weeks prior to event. Only approximate numbers of participants required at registration. Two weeks prior to event we need a list of attendees with names and scouting levels. We can provide camp-in flyers and registration forms for your convenience.

3. Select a Theme

Every camp-in theme is fun and educational and all scout ranks are welcome. Symbols indicate scout ranks that complete part or all of a badge.

For more details on specific themes or to suggest another topic please contact 815-972-2843 or email scouts@discoverycentermuseum.org

Blast Off

Engineer a Fling Flyer and delve into aeronautics as you experiment with Bernoulli's Principle and Newton's Laws of Motion! Discover the ups and downs of pressure with your own submarine, and more!

Body Shop

Get hands-on with the ins and "outs" of digestion. Discover which intestinal formula triggers diarrhea. Make mucus, fabricate phlegm, and dissect a real cow eyeball! (No giggling, please.)

Earth Rocks

Model two types of volcanic eruptions and classify rocks and minerals. Create with recycled materials, witness the wonders of lightning, and find Earth's place in space in the planetarium.

Franken-Science

Assemble a skeleton, boogie under black light, concoct glowing slime, bubble dry ice and more! Experience hair-raising science, and wrap up the night with glow lights and a planetarium show.

Game

Design

It's your turn! Decide what makes the best games in both low and high-tech. Kids and grown-ups work together to conceptualize, design, and create an original board game to take home!

Imagineers

Fire up your imagination and experiment with momentum, kinetic and potential energy, and the forces of physics! Work with a team to build a roller coaster thrill ride and engineer a racecar to take home!

Moon and

Stars

Walk your way through the night sky, identify planets and constellations, model the solar system, and invent your own satellite.

Mystery Crime Lab

Put on your detective hat and use forensic science to solve this case! Examine fingerprints, take apart ink, crack a code, measure footprints, and more.

Mythbusters!

Have you ever wondered (but been too scared to test) what happens when you eat PopRocks while drinking Coke? Can a ninja really run on water? Use science to test out myths and decide: are they plausible or BUSTED?

Sink & Splash

Dive into density as we fiddle with layered liquids to make a toy; build a buoyant boat, test the properties of H₂O; and make a splash!
